

JACOB CHESTNUT

Nashville, TN • jacobschestnut@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

Technical Skills

Languages: JavaScript, Python, Swift, Java, Gosu, SQL, HTML/CSS

Frameworks & Libraries: React, Next.js, Vue.js, Django, FastAPI, Tailwind CSS

Platforms & Tools: Guidewire (ClaimCenter, ContactManager, ProducerEngage), Git/GitHub, Postman, REST APIs, SOAP/XML APIs

Databases: MySQL, SQL

Professional Experience

Application Developer | Farm Bureau Insurance

March 2023 – Present

Key Achievements

- Implemented feature flagging infrastructure using ConfigCat across Guidewire applications (ClaimCenter and ContactManager), enabling controlled feature rollouts and safer deployments.
- Provided documentation and technical guidance to multiple engineering teams integrating the feature flagging system into their services.
- Revived and stabilized the Claims Adjuster iOS application used by field agents, serving as the sole developer responsible for maintenance and new feature development.
- Designed a financial reserve creation feature in the mobile app, allowing adjusters to create reserves directly from the field.
- Resolved complex production issues through debugging across application logs, APIs, and database systems, frequently leveraging SQL queries to investigate and identify root causes.

Responsibilities

- Develop and enhance enterprise insurance systems on the Guidewire platform (ClaimCenter, ContactManager, ProducerEngage) using Gosu, Java, and Next.js.
 - Implement new features, UI updates, integrations, and production bug fixes supporting internal insurance operations.
 - Develop and optimize edge APIs utilizing XML-based web protocols to support system integrations.
 - Collaborate with QA teams, managers, and engineers to triage issues and deliver platform improvements.
-

Education

Nashville Software School

Full Stack Software Development

October 2021 – September 2022

Middle Tennessee State University

BS – Audio Engineering

August 2015 – May 2019
